VISIOCAP

Cap inspection system

On-line inspection to detect minimum capping defects.

 **Speed**
90,000 UPH

ADVANTAGES

- **High-performance** production, up to 90,000 UPH, depending on the inspections conducted.
- **Easy** installation on pre-existing belt.
- **Robust, compact**, and resistant design.
- **Easy and fast** format and product changes.
- Does not require **maintenance**.

CHARACTERISTICS

- Colour or black and white multi-camera.
- Possibility of adding an overhead camera above.
- Stainless steel enclosure.
- Intuitive user interface. Remote control and remote diagnosis via the internet.
- Cutting-edge processor.
- 17" screen.
- USB, Ethernet.
- Parameters and tolerances allowed for each format.
- Production statistics in real time.
- Automatic height adjustment.
- Software able to manage rejection and external inspection signals.

MONITORING

- Monitoring over cap device head operation.
- Monitoring over filler valve operation.
- Detection of exploded or fallen bottles.

TYPICAL INSPECTIONS

Missing cap

Tilted cap

Thread degree

Tamper-proof ring

Distance between collar and cap

Fill level
